

# Payment & Pricing Policy

---

## 1. Pricing Transparency

All project prices are shared **upfront** with a clear breakdown of services, scope, and estimated delivery timeline.

Prices may vary depending on:

- Project complexity
- Number of pages/screens
- Revisions or urgency
- Additional requests post-approval

We follow **value-based pricing** or **hourly-based pricing**.

---

## 2. Payment Terms

Project Type	Payment Structure
Projects under ₹3,000	100% advance payment
Projects over ₹3,000	50% advance, 50% on delivery
Urgent Deliveries	100% advance + urgency fee

Work begins only after advance payment is received.

Final files/hosting will be delivered only after full payment is completed.

---

## 3. Accepted Payment Modes

- UPI (for Indian clients)
- Bank Transfer (on request)
- PayPal or Wise (for international clients)

We do **not** accept cash, crypto currency, or post-dated payments.

---

#### 4. Hourly Work

For minor or time-based work (design fixes, tweaks, copy edits):

Task Type	Hourly Rate
-----------	-------------

Design-only updates	₹199/hour
---------------------	-----------

Full frontend edits	₹299/hour
---------------------	-----------

Hourly work must be pre-approved and time-tracked via written logs.

---

#### 5. Revisions & Scope Changes

- **2 free revision rounds** included
  - ₹299 per additional round
  - Major scope changes (extra pages/features) will be quoted separately
- 

#### 6. Timelines & Deadlines

- Project timelines are shared before starting
  - Urgent projects (1–2 day delivery) will include a fast-delivery fee
  - Delays from client (e.g., content not provided) may shift timelines
- 

#### 7. Refund Policy

We do not offer refunds once work has started, as our time and efforts are non-recoverable.

For long-term projects, partial refunds may be considered **only before design approval**, and strictly at our discretion.

---

## 8. Ownership & Handover

- Project assets (design/code) are handed over **after final payment**
  - Until then, all work remains the intellectual property of Trovyn Studio
  - Delivery formats: Figma link, code folder (ZIP), or hosted live site
- 

## 9. Mutual Respect

We value respectful, clear communication from both sides. Abuse, ghosting, or repeated changes without confirmation may lead to project cancellation (with or without refund depending on stage).
